Giving back to society has always been at the heart of my family. Hong Kong is an international city and international law is in action affecting every aspect of our life. With its unique position in China and Asia, Hong Kong is best placed to be Asia-Pacific's international legal and dispute resolution centre. It is now for Hong Kong to forge itself as one of the leading international law hubs in the world. I hope this Professorship will contribute to the maintenance of the rule of law and to Hong Kong's place in the global legal environment.
